Foreword

As the founder of Revive! Adventures and the coordinator of the Revive! South Africa GAP Program, it gives me great pleasure that I can finally see this Godly vision come into existence. I hope and pray that it will be a beacon of hope and transformation for countless individuals seeking to unlock their true potential and discover their purpose in life.

I therefore formally invite all school leavers, final-year University students, and/or anyone else over the age of eighteen who wants to unlock their true potential and discover their purpose in life, to apply and come and join us on a one-month Revive! South Africa GAP Program taking place in South Africa from 20 June to 20 July 2025.

Revive! South Africa began as a dream in 2007, a dream I fervently believe comes from God Himself. With unwavering dedication and a profound sense of purpose, I tirelessly pursued the realization of this vision, pouring my heart and soul into creating a program designed to guide individuals on a journey of self-discovery and empowerment that is in line with the will of God.

In fact, the concept of the GAP program originated during a transformative journey that I embarked upon in 2007-2008, shortly after turning twenty-four. During this journey, God led me to various countries around the world, revealing the depth of His love for all people and His active presence in transforming lives. Witnessing firsthand the diverse ways in which people from different cultures worshipped Him, I was humbled and deeply inspired.

Through the stories shared by individuals I encountered along the way, I felt a profound sense of encouragement to surrender every aspect of my life to God and to dedicate myself wholeheartedly to serving Him. This journey served as a catalyst for the birth of the GAP program, as I was moved to create a platform through which others could experience the transformative power of God's love and find opportunities to serve Him with their lives.

At the core of the Revive! South Africa GAP Program lies a deep-seated belief in the power of understanding oneself. Through a structured process, participants are guided to explore their inherent temperament, unravel the intricacies of their life story, and confront the hurts and pains of their past and present. It is through this journey of introspection and healing that individuals are empowered to shed the burdens that inhibit their growth and development.

It is important to mention that this experience extends far beyond self-awareness and healing. Under professional guidance and in a controlled environment, participants are equipped with the necessary tools and insights needed to discern their unique purpose in life. Armed with a newfound clarity of vision and a deeper understanding of their skills and talents, individuals are inspired to chart a course toward contributing meaningfully to the world and building God's Kingdom.

We aim to ensure to produce consistent visionary leadership but also compassionate mentorship and guidance to all participants. My team and I are committed to ensuring the holistic development of each participant during every phase of the Revive! South Africa GAP Program and beyond.

As we embark on this journey together, may we all be inspired and motivated to pursue our path of self-discovery and purpose.

Kind regards,

Past. Phillip L. Murray

10. Team Clothing & Dress Code

Team Clothing:

As part of this package, all participants will be provided with a Revive! South Africa team jacket along with two team t-shirts. It is mandatory to wear either the team jacket or the t-shirt during our community outreach activities and during any other official team activity.

The cost of this clothing is included in the overall package's price, ensuring that participants are dressed appropriately for their involvement in these endeavors.

Dress Code:

Our GAP program maintains a primarily casual dress code, fostering a relaxed yet respectful atmosphere. While participants are encouraged to express their personal style, it is important to adhere to guidelines that ensure a professional and inclusive environment.

Therefore, attire should avoid being excessively revealing; pants and shirts/tops must not expose too much skin, maintaining a modest and appropriate appearance. Additionally, clothing should be free from tears or rips that might inadvertently reveal more than intended, ensuring a neat and polished presentation for all participants.

13. Safety & Security

1. Destiny House Farm:

For the safety and security of all participants and staff members, it is mandatory to remain within the secure area enclosed by wired fences where the farmhouse is located at all times unless accompanied by a staff member. When leaving this area, participants must inform a staff member of their whereabouts.

The farm is equipped with comprehensive security measures including two watchdogs on the premises, several floodlights, and multiple cameras. The entire perimeter is fenced off with a gate. Additionally, the farmhouse and rooms are fitted with burglar bars, and an alarm system is installed, which is connected to a 24/7 armed response security company. This ensures immediate response in case of any security threats or emergencies.

We are proud to report that over the last decade, there have been no security or emergency incidents on the farm. Participants can be assured that the farm is a secure and safe environment. It is essential for all participants to adhere to these security protocols to maintain the safety and well-being of everyone on the farm.

2. Excursions:

Safety and security during excursions are of paramount importance to us. The safety and security protocols will be regularly communicated during team meetings before and during excursions. It is essential that every participant takes personal responsibility for their safety and adheres to the provided guidelines.

Participants must promptly report any incidents where safety and security protocols are not followed during excursions. Our excursions may include visits to nature reserves with wild animals and traveling over long distances.

While Revive! Adventures will do everything within our power to ensure participants' safety and security during excursions, ultimately, individuals are responsible for their own well-being. Additionally, each location we visit in South Africa will have its own safety and security protocols, which participants must strictly adhere to at all times. Failure to adhere to these guidelines may result in disciplinary action, up to and including dismissal from the program, without eligibility for a refund.

3. South Africa:

While certain parts of South Africa may have high crime rates, it is important to note that the country remains a popular and generally safe destination for tourists. At Revive! Adventures, the safety and security of every participant are our top priorities, and we are committed to doing everything in our power to ensure their well-being throughout their stay.

By following a few simple safety guidelines while in South Africa, participants can enhance their overall experience and minimize potential risks. Some of these guidelines include:

- staying vigilant and aware of their surroundings,
- avoiding displaying valuable items in public,
- using reputable transportation services,
- refraining from walking alone at night in unfamiliar areas,
- and keeping important documents and belongings secure at all times.

Additionally, we encourage participants to adhere to any safety advisories or recommendations provided by local authorities and to seek assistance from program staff if needed. With these precautions in mind, participants can enjoy their time in South Africa with peace of mind.
